SEPTEMBER 2012

Indian Railways Institute of Civil Engineering, Pune - 411001

Important Recommendations

CPDE & CE / Works Seminar on 12th & 13th July 2012

- **Development of Quarter Management Module**
South Eastern and Western Railways should develop the structure of data for the module of quarter maintenance system and submit to Railway Board for further action.
- **Online/SMS based complaint system for petty repairs**
South Central Railway should send write-up on this system to Railway Board for their consideration and should plan to give a presentation on this system during the Works Standard Committee to be held at Madurai in the last week of September 2012.
- **Allotment of matching funds as corporate welfare plan for staff colonies**
Considering the low satisfaction level of staff regarding the facilities available in their residential dwellings, Railway Board is requested to increase the allotment of funds in the Plan Head for staff quarters and staff amenities.
- **Imprest and utility vehicles to SSE/W:**
Recommendation: Railway Board is requested to enhance the per bill limit of expenditure through imprest from existing Rs.2000/- to Rs.5000/-.
- **Provision of light weight Platform Shelter & Foot Over Bridges at railway stations.**
RDSO should initiate the process of development of the new designs of platforms shelter, Foot Over Bridges and other structures in the passenger areas being aesthetic and economical.
- **Multi Function Complexes:-**
Railway Board is requested to issue the guidelines for leasing and licensing of multi-functional complexes to be followed uniformly all over in Indian Railways.

CHIEF ENGINEERS / TP SEMINAR ON 8th & 9th AUGUST 2012

ACTION OF CE/TP SEMINAR 2011

- Two committees nominated by Railway Board for framing special condition, uniform PVC formula.
- Facility for uploading of POs on TMS website
- New discussion forum "Track Procurement Forum" created on IRICEN website.

IMPORTANT RECOMMENDATIONS OF CE/TP SEMINAR 2012

- Development of module for paperless working of concrete sleeper plant and track procurement systems.
- Modification of contradiction in instructions to do away with Risk purchase in stores tenders.
- Amendments to arbitration clauses in Stores Contracts to include limitation and excepted matters.
- Proposal for inspection of metal liners by Zonal Railways instead of RITES.
- New training course in IRICEN for AENs and Supervisors of concrete sleeper plants.
